

QVIEW Integrated Viewer for QDMS

Quick Start Instructions

QA software

This set of instructions is provided to enable QVIEW to be installed as an add on to existing QDMS Installations. Note that these instructions assume that QDMS is already installed on your work station.

Minimum Requirements

An Intel® Compatible Pentium PC, 64MB RAM, 20MB free Hard Disk space, Windows 9x, NT, 2000, or XP, Microsoft Internet Explorer 4, a screen resolution of 800 x 600.

Installation of QVIEW

1. Insert the QA Software CD and if it auto loads, close the menu screen
2. Using Windows Explorer locate the D:\QView\Disk1 folder and double click on QVIEW.msi (If you downloaded QVIEW from the Internet, simply double click the QVIEW.msi file downloaded).
3. Follow the install instructions.

Note that QVIEW must be installed on each workstation in a multi user network environment.

Activating QVIEW

4. Run QDMS as normal and select any project.
5. From the Tools menu, select Options and then click on the Program Defaults page.
6. Click Edit and select the Viewer in the Viewer field as QVIEW.
7. Click Save and close the Tools\Options window.

Registering QVIEW

8. A QDMS + QVIEW installation requires a new registration key as opposed to QDMS installed alone. Please contact QA Software to obtain this registration key.

Without being registered, QVIEW is limited to viewing files with names QDMSn.* where n is in the range 0 to 9.

Evaluating QVIEW

QVIEW is available from the following areas of QDMS:

- File\QVIEW: Used to view files not registered as controlled documents in QDMS
- View\Master Document Register: Right click on the title of a document and use Select file to link a file to the record. Then double click on the record to launch QVIEW.
- View\Document History File
- Misc\Master Document Reg – CAD Viewer

Support

If you are having any problems with getting our software installed or getting started, please don't hesitate to contact our Technical Support Division by Phone: +61 (3) 8379 0000, Fax: +61 (3) 9326 6544
